## Feed & water:

purchase feed from quality assured suppliers, store to prevent contamination, keep water clean.

**Feral animals & pests:**  
work with neighbours to control feral animals and pests.

## New stock:

insist on a health declaration, isolate and monitor new stock for at least a week.

**Good livestock farming practices make good sense.**

If you spot unusual disease symptoms, abnormal behaviour or unexpected deaths in your herd, immediately call your veterinarian, stock inspector, or the Emergency Disease Watch Hotline on [1800 675 888](tel:1800675888).

Look. Check. Ask a Vet.
